DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 18, 27 & 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cloarec (US Patent No. 6,167,708) in view of "Official Notice". Claims 18, 27 & 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Cloarec (6,167,708).

Cloarec discloses a process and apparatus for in-line freezing of a product such as food and comprising: a refrigeration system (6) for refrigerating a product (P), a sprayer (7 & 8) for spraying a cryogenic liquid film for impregnating a conveyor (3) at is inherently capable of causing vibration/oscillation, feed valves (11 & 12) maybe proportional type valves (see column 3), a control system (13) for controlling the feed of cryogenic liquid, a temperature probe (14) at upstream end of an enclosure, and a regulator (16) which using data coming from sensors are able to control the feed valves. Cloarec lacks a heated temperature probe. Examiner takes "Official Notice" since it is well known in the art to utilized a heated temperature for heating a liquid source.

Allowable Subject Matter

Claims 36 & 37 are allowed over the prior art of record.

Claims 19-26 & 29-35 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melvin Jones whose telephone number is (571)272-4810. The examiner can normally be reached on Monday- Wednesday & Friday.
